

MK MOBILITY BATTERIES

THE MOBILITY INDUSTRY STANDARD

- ▶ LONGEST LIFE
- ▶ SUPERIOR CYCLING CAPACITY

HOME MOBILITY EQUIPMENT (HME) BATTERIES

WHY CHOOSE MK BATTERIES? ▾

- ▶ **EXTENDED LIFE** - last longer than comparable wet lead-acid and marine batteries
- ▶ **SUPERIOR CYCLING** - capable of up to 1100 cycles for a typical HME user
- ▶ **AGM OR GELLED ELECTROLYTE** - will not spill or leak and can be installed in any position
- ▶ **MAINTENANCE FREE** - sealed construction eliminates periodic watering, corrosive acid fumes and spills
- ▶ **TRAVELS & SHIPS EASILY** - F.A.A., IATA and UPS approved
- ▶ **USER SAFETY** - special re-sealing vent system prevents excessive internal pressure so that battery will not explode under normal conditions
- ▶ **EASY CHARGING** - charge faster than conventional batteries and do not need to be fully discharged before re-charging; will not develop a "memory" that limits recharging
- ▶ **LOW SELF-DISCHARGE** - less than 2% stand loss means little deterioration during transport and storage

| ITEM NUMBER | DESCRIPTION | VOLTAGE | AMP HOUR (20 Hrs.) | DIMENSIONS - Inches (mm) | | |
|--------------------------|-------------|---------|--------------------|--------------------------|-------------|-------------|
| | | | | LENGTH | WIDTH | HEIGHT |
| GEL / SEALED TYPE | | | | | | |
| U1 SLA MK | U-1 SLA | 12 | 33 | 7 3/4 (197) | 5 1/8 (130) | 7 1/4 (184) |
| 8GU1 | U-1 GEL | 12 | 31.6 | 7 3/4 (197) | 5 1/8 (130) | 7 1/4 (184) |
| 8G22NF | 22NF GEL | 12 | 50.6 | 9 3/8 (238) | 5 1/2 (140) | 9 1/4 (235) |
| 12V-26 | 12V-26 | 12 | 26 | 6 1/2 (165) | 6 7/8 (175) | 4 3/4 (125) |
| 12V-18 | 12V-18 | 12 | 18 | 7 1/8 (181) | 3 (76) | 6 1/2 (165) |
| 12V-40 | 12V-40 | 12 | 40 | 7 3/4 (197) | 6 1/2 (165) | 6 3/4 (171) |
| 8G34R | 34-GEL | 12 | 60 | 10 1/4 (260) | 6 5/8 (169) | 7 (178) |
